DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

This application is in condition for allowance except for the presence of claims 9-17 directed to an invention non-elected with traverse in the reply filed on 10 April 2006. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

Claims 1, 2, 4-8, 18-21 and 23 are allowable. The restriction requirement among Groups I, II and III, as set forth in the Office action mailed on 10 March 2006, has been reconsidered in view of the allowability of a claim to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Dependent claim 22, directed to the drill rod is no longer withdrawn from consideration because the claim requires all the limitations of an allowable claim. However, independent claims 9 and 15 including claims 10-14, 16 and 17 dependent thereon, directed to Groups II and III

remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The prosecution of this case is closed except for consideration of the above matter.
